

Workgroup On Larger Foraminifera

*Towards a
Paleocene
Atlas of LF*

**6th WOLF
Meeting**

**Modena,
Department of
Chemical and
Geological Sciences
4-6 October 2013**

Program

Friday, 4th October

Morning: arrival of the participants

Posters:

- **Claudia Baumgartner-Mora:** *Advances of the Lausanne Foraminifera Database: Caribbean and Central American Larger Foraminifera.*
- **Patrick Bukenberger:** *3D models of microborings structures in larger benthic foraminifera: new frontiers, new problems and new(?) solutions.*
- **Vlasta Cosovic and Katica Drobne:** *Identification of Larger foraminifera, Paleocene-Eocene boundary, SW Slovenia, Paleogene Adriatic carbonate platform*
- **Wolfgang Eder:** *Growth of Heterostegina depressa under natural and laboratory conditions.*
- **Michaela Kahsnitz:** *Taxonomy of the Paleocene larger benthic foraminifera in south Tibet (China).*

Afternoon: free (informal) communications, first part:

14.30-15.00 - **Johann Hohenegger** “*Recognition of species in the Recent and geological past as exemplified by larger foraminifera*”

15.00-15.20 - **Ana Torres** “*First attempt for an Atlas of Caribbean Larger Foraminifera*”

15.20-15.40 - **Zhang Qinghai** “*Paleocene-early Eocene LBFs in Tibet*”

15.40-16.00 - COFFEE BREAK

16.00-16.20 - **Elena Zakrevskaya** “*LF from Armenia*”

16.20-16.40 - **Vlasta Cosovic and Katica Drobne** “*Paleocene/Eocene boundary and the larger benthic foraminifera from the NW margin of the Paleogene Adriatic carbonate platform*”

16.40-17.00 - **Davide Bassi** “*The Lukas Hottinger's monography: Paleogene larger rotaliid foraminifera from the western and central Neotethys*”

17.00-19.00 - Open discussion

Evening:

Dinner in a nice restaurant with typical local dishes (price: about 25€/person).

Saturday, 5th October

Morning: free (informal) communications, second part:

09.00-09.20 - **Antonino Briguglio** “*Long living larger foraminifera as high resolution archives of short deep time changes*”

09.20-09.40 - **Mona Seddighi** “*Experimental taphonomy on larger foraminifera*”

09.40-10.00 - **C. Baumgartner-Mora, P. O. Baumgartner and G. Andjic** “*Late Cretaceous to Miocene Larger Foraminifera and the emergence of the Middle American Landbridge*” (in French)

10.20-10.40 - **Vibor Novak** “*Larger foraminifera as environmental discriminators in Miocene mixed carbonate-siliciclastic systems*”

10.40-11.00 - COFFEE BREAK

11.00-11.20 - **Andrea Benedetti** “*Paleocene larger foraminifers from the sheet 348 "Antrodoco" (Geological Map of Italy at 1:50000): taxonomic remarks*”

11.20-12.00 **Johannes Pignatti** “*State of the art of the Atlas project*”

Lunch break

Afternoon:

14.30-19.00 - Open discussion.

Sunday, 6th October

Fieldtrip to some Veneto Paleogene localities.

Time of departure: 7.00 from Modena

STOP 1 (arrive at about 9.30):

Bolca, Pesciara/Monte Postale outcrops with alveolinas.

11.30: Departure to Pederiva

STOP 2 (arrive at about 13.00):

Pederiva. Lunch, visit to the nummulite bank outcrop.

14.00: Departure to Mossano.

STOP 3 (arrive at about 14.30):

Arrival in Mossano. Visit to the Bartonian/Priabonian section with nummulites and orthophragminas.

Coming back to Modena around 15.30 (arriving in Modena expected around 18.00).

Those who would like to go home directly have to come with their own cars.
